

Beaton Consulting: Business Analyst selection criteria

Targeted Disciplines

Candidates should have a first degree in a relevant discipline e.g. business, marketing, management, psychology etc, possibly with a second/combined degree.

Selection Criteria

The successful candidate will be a recent graduate who is energetic and eager to learn in a nurturing environment. The following selection criteria are also essential:

- Strong academic results, i.e. distinction average
- Competent in management accounting concepts and analyses
- Ability to prepare industry analyses
- Well developed oral skills
- Excellent written skills, particularly report writing
- Highly literate in all Microsoft Office applications (especially Excel and PowerPoint)
- Applicants should be able to demonstrate initiative, self-confidence, commercial awareness, customer service orientation, enthusiasm and the ability to think analytically
- No specific experience is required however work experience in a relevant field is valued
